How To Set Parental Controls On PlayStation PS4

You'll need to set up accounts for family members, with adult and child accounts, and make sure you and other adults have family manager or parent/guardian status. Read more about how to do this here: https://www.playstation.com/en-gb/get-help/help-library/my-account/parental-controls/family-management/

Set a login passcode and system restriction passcode

A login passcode means that only you can log in to the 'family manager' user on the system.

➢ Go to Settings (this should be shown by a toolbox icon) > Login Settings > Login Passcode Management. Set a 4-digit passcode using the controller

Using a system restriction passcode will prevent your child from changing parental control settings.

➢ Go to Settings > Parental Controls/Family Management > PS4 System Restrictions

➢ Enter the existing system restriction passcode (if you haven't set one before, the default is 0000)

➢ Select 'Change System Restriction Passcode'

➢ Enter a new 4-digit passcode using the controller, then re-enter it to confirm

Set spending limits

➢ Go to Settings > Parental Controls/Family Management > Family Management

➢ Select 'Applications/Devices/Network Features' under the 'Parental Controls' section

Set age rating levels for games, Blu-ray discs and DVDs

➢ Go to Family Management, as above (you may need to enter your account password)

➢ Select the user you want to set the age level for

➢ Select 'Applications/Devices/Network Features' and select the content you want to restrict

Set screen time limits and bedtimes

➢ You can set playtime limits, under 'Parental Controls/Family Management'.
